

Tee Ball

All outfielders must be position themselves on the outfield grass approximately ten(10) feet from the infield before play starts. Once the ball is hit they may come forward to the infield area. Up to two defensive coaches are allowed in the outfield and one on the infield near the pitcher.

An inning will be over when the last batter in the lineup has hit and the defensive team either earned an out or an infielder raises the ball in the infield in fair territory. Base runners shall not continue running the bases. If three outs are earned before the last batter has hit, the bases are cleared and the number of outs is reset to zero.

Play will stop when an infielder raises the ball on the infield in fair territory. Runners more than half the distance to the next base when play stops will be allowed to occupy the next base. All others will return to the previous base unless they are forced to the next base.

The adult base coaches will umpire. No player base coaches will be allowed.

All players must play in the infield during the game.

Please use the tee ball handbooks to structure your practices by.

Coach Pitch

The Atlee Little League Board of Directors has voted on the following rules and expects all managers/coaches to adhere to them. During the season if you have suggestions for rule changes please suggest those changes to your division director, Robert Parrish.

- Defensive Players: Ten (10) players may play defense at one time. No player shall sit the bench in consecutive innings. Infielders must play standard infield positions. All outfielders must play in the grass.
- Offensive Players: All players will be in the batting lineup at all times. The lineup shall be rotated every game in such that no player bats in the same place in the lineup more than a few times.
- Batting: Offensive coach will pitch 3 balls to the batter. If the last ball is fouled, the batter will continue to bat until the ball is in play, misses, or doesn't swing. Upon striking out, the batter will hit off a tee. The coach pitcher should stand or kneel twenty feet from home plate while pitching.
- Batting Limit: Every player in the lineup bats in an inning. A double will be the furthest base a batter can be awarded. A double can be awarded when the ball is hit past the outfielders and a play is not made on the ball. (Play: an outfielder while attempting to play a hit ball puts a glove on the ball) This rule will apply to the last player in the lineup.
- After obtaining the third out, the offensive team must clear all the base runners but will continue through the end of the lineup.
- There will be no bunting, base stealing, or running on overthrows.
- The catcher's position does not have to be utilized.
- No player should play the same position twice in one game. No player shall play the outfield in consecutive innings.
- All managers have been sent a coach pitch program. The league would like all managers to use the practice plans in the Little League Coach Pitch program.
