

Water Cooler Set Up Directions

- You may use one of the John Deere Gators for the purpose of water cooler setup.
- Refer to the game schedule for fields in use the day that you are signed up to volunteer
- Please pull all water coolers from scoring towers/ dugouts and bring up to the concession building.
- Please dump all remaining water out of coolers from previous day and rinse coolers out under water spigot.
- Proceed to fill three coolers per field with ice. One cooler should be filled with 10 bottled waters before ice is added.
- Once ice is added, please use spigot to fill water coolers with water. Water bottle cooler should only have ice and bottled water.
- Please distribute water bottle coolers to each scoring tower. One water cooler shall be placed on the home bench and visitor bench of each field being used that day
- Please also ensure that each dugout has one sleeve of drinking cups to accompany the water coolers

Thank you again for volunteering your time in helping us make this a very successful tournament.
